PROFESSIONAL SUMMARY

A dedicated Website Developer passionate about crafting clean, user-friendly digital experiences. Proficient in building responsive and performant websites from scratch using modern technologies like React.js, Vue.js and Next.js. Committed to helping clients transform their vision into a high-quality, functional reality.

EXPERIENCE

Freelance Web Developer | Self-Employed | 2023 - Present

- Successfully delivered **10+ web projects** for diverse clients, ranging from e-commerce stores to business portfolios.
- Translated complex UI/UX designs (Figma/Adobe XD) into pixel-perfect, interactive frontend code.
- Communicated directly with clients to define requirements, providing regular updates and ensuring 100% on-time project delivery.

PROJECTS

Modern E-commerce UI | React.js, Context API, Framer Motion

[\[Live Demo\]](#) [\[GitHub\]](#)

- Designed a pixel-perfect, responsive shopping interface with reusable components and modern patterns.
- Built dynamic Cart and wishlist functionality using Context API for state persistence across sessions.

Analytics Dashboard | React.js, Chart.js, Tailwind CSS

[\[Live Demo\]](#) [\[GitHub\]](#)

- Built a responsive admin dashboard visualizing complex data sets via interactive charts and graphs.
- Optimized rendering performance for large datasets to ensure a smooth, lag-free user experience.

High-Converting Landing Pages | Next.js, Framer Motion

[\[Live Demo\]](#) [\[GitHub\]](#)

- Developed multiple pixel-perfect landing pages focused on high conversion and responsive design.
- Achieved 100/100 Lighthouse Performance Score via image optimization and code splitting.

SEO Blog Application | Next.js, SSR, Sanity CMS

[\[Live Demo\]](#) [\[GitHub\]](#)

- Created a dynamic blog using Server-Side Rendering (SSR) for maximum organic search visibility.
- Implemented JSON-LD Schema and meta-tags to secure Rich Snippets in Google search results.

TECHNICAL SKILLS

- Core & Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- Frontend Libraries:** React.js, Next.js, Vue.js, Redux Toolkit, Tailwind CSS, Framer Motion
- SEO & Performance:** Technical SEO, Core Web Vitals, Schema Markup, Google Search Console, Lighthouse
